Ayaj Ahamad

Objective

Python Developer with 1+ years of experience in building scalable web applications using Python (FastAPI/Flask), React, and PostgreSQL. Skilled in developing RESTful APIs, optimizing database performance, designing ETL pipelines, and integrating responsive frontend interfaces. Proven ability to troubleshoot database issues and manage day-to-day data operations. Committed to delivering clean, efficient code and end-to-end solutions in fast-paced, collaborative environments.

Education

2023 **Bachelor of Engineering in Computer Science and Engineering**

Anjuman Institute of Technology and Management

CGPA: 7.1

Work Experience

Agile Health Technologies India Pvt. Ltd.

Dec **Software Developer (Full-Time)**

- 2024–Present
- Built 15+ REST APIs using FastAPI for healthcare applications
 - Integrated backend services with React frontend for dashboard functionality
 - Optimized 20+ SQL queries & PostgreSQL functions, improving performance by 35%
 - Created stored procedures for complex data operations in PostgreSQL

Aug **Software Developer Intern**

- 2024–Dec
- 2024
- Designed Python scripts for ETL processes from SQL Server to PostgreSQL
 - Automated daily data transfers for 50K+ records with 99% accuracy
 - Monitored and optimized 10+ scheduled jobs daily, reducing failures by 40%
 - Resolved 120+ database tickets, maintaining 98% system availability

Technical Skills

Languages Python, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries Flask, FastAPI, Django, SQLAlchemy, Pydantic, Pandas, NumPy

Frontend React, Responsive Web Design, Bootstrap

Databases PostgreSQL (Advanced), MySQL, MSSQL

Tools VS Code, DBeaver, pgAdmin, MySQL Workbench, Git, Docker (Basic), Poetry

APIs RESTful APIs, Swagger/OpenAPI, Postman

Data Analysis Excel (Advanced Formulas, PivotTables), Power BI (Basic)

Cloud Platforms Azure Fundamentals (Knowledgeable)

Soft Skills

- Problem Solving & Analytical Thinking
- Effective Communication (Technical & Non-Technical)
- Team Collaboration & Knowledge Sharing
- Time Management & Meeting Deadlines
- Adaptability to New Technologies

Projects

Senscio - Healthcare Analytics Platform, Professional Project

- Developed clinical management dashboard tracking patient metrics for 50+ healthcare providers
- Built financial analytics module processing \$2M+ monthly transactions
- Implemented KPI monitoring system for chronic care management
- Optimized PostgreSQL queries (300ms → 80ms response time)
- Impact: Reduced manual reporting by 65%, improved payment efficiency by 30%

Automatic Attendance Management System, Academic Project

- Designed system using facial recognition with Python and Deep Learning
- Implemented faculty dashboard with attendance reporting

Employee Management System, Personal Project

- Built web app with FastAPI for job seeker profiles and resume management
- Implemented JWT authentication and resume parsing system

Certifications

Python Full-Stack Development Certificate – Be Practical Tech Solutions

Internship Certificate (Web Development) - Learn and Build

Languages

- English (Professional Working Proficiency)
- Kannada (Native)
- Hindi (Fluent)
- Urdu (Fluent)
